

Calling All Hearts

(Revised on August 11, 2015)

This is a call for your heart to realize a critical situation that is effecting humanity in ways that are as unusual as they are dangerous. Your awareness and care are deeply needed.

Most people are aware that radio waves can be sent down to their homes or computers, from satellites, for the purpose of internet access. But most people are not aware that these sorts of radio waves (microwaves) can also be criminally used. Radio waves, which are tuned to the same frequency as the human brain, and encoded with messaging, can be used to literally brainwash whole communities. This form of brainwashing is aided by pharmaceuticals like antidepressants, which have been found in USA public drinking water since 2008. Though the immediate effects are virtually unnoticeable to most people, the long term effects could be devastating for all of humanity. When we are not allowed to freely think and feel we can not fully follow our own instincts, hearts and dreams, especially when we are not aware of being brainwashed. This is literally destroying the heart of humanity!

I understand how difficult this may be to believe, but please give it the benefit of your doubt. I don't want to scare you, but the truth needs to be exposed, and the sad truth is that even worse than mild brainwashings are happening. Condensed beams of radio waves can be shot into the human brain and effect functionality in ways that range from mental numbness and confusion. . . to sudden rounds of unusual mood swings and complete mind control - human enslavement. (Radio waves shot into other organs can cause physical illnesses that range from mild to lethal. A few examples are; lupus, leukemia, lung afflictions, brain damage, tumors...etc. And, unfortunately, this is also happening.) **Please care to realize the dangers in allowing criminal use of these technologies to continue and grow, because this needs to be stopped ASAP.**

Criminal use of satellite surveillance systems and radio wave transmitters may be the most dangerous thing humanity will ever have to face. And it MUST be faced!

There is documented scientific proof that experiments, on the effects of radio waves (microwaves), being shot into the human body and brain, began around the early 1900s by scientists like Nicola Tesla. It is safe to assume that, since then, many organizations and governments have experimented with performing mind control on human beings as well as animals. Though most of this has been kept secret, hints of it have leaked into the mainstream media. Part of the MKULTRA mind control program was exposed in the 1970s. In 1976 Time Magazine reported, "**Last month the U.S. confirmed that for some 15 years the Soviet Union has been beaming microwaves at the hulking nine-story U.S. Embassy...**" However, these types of targeting have had little media exposure since then.

Quote by (the late) Veteran Author Jim Keith: "Brain-computer radio communication has long been considered impossible by the majority of people and has consequently been relegated to science-fiction, but the fact is that the technology had been developed into reality by at least the 1960s, during which time the initial experiments were being performed on unwitting subjects."

Quote by (the late) Researcher Philip Coppens; "In April 1953, CIA Allen Dulles gave a lecture at Princeton University, detailing Soviet developments in the field of mind control. He stated they were out to control the mind of free men, both individually and collectively. . . Dulles proclaimed that the Cold War was moving into a new era of psychological warfare. . ." This statement really says it all. And the worse part is that the "rescue" or "protection" from the targeting appears to be a technological enslavement process.

Quote by John F. Kennedy: "There is no escaping either the gravity or the totality of its challenge to our survival and to our security - a challenge that confronts us in unaccustomed ways in every sphere of human activity." He also expressed firm opposition to secret societies, oaths and proceedings, especially in the process of dealing with this crisis. But after efforts to expose it in the 1970s it slyly continued and grew.

I believe that victims of brainwashing, and other forms of microwave targeting, include media personnel, medical professionals and all levels of government personnel as well as common citizens. In part of the targeting process, unaware mind control victims are being recruited into a covert program and sworn to secrecy. They then seem to blindly follow orders from their leaders. Most of them seem to think it is a good thing, but it obviously is not. Members are enslaved and used to help target and recruit those of us who are still free. And the mind control part is often sadistic. Citizens and governments are being pitted against each other, families are being torn apart...etc. **There is a desperate need for government officials, media and citizens (around the globe) to find the heart to unite into the grandest PEACEFUL, public stand for freedom that humanity has ever had to perform. Public awareness of the covert program can stop the recruiting process (stop its growth) and enable victims to support each other until these crimes are completely stopped. Please become aware and help stop technological mind control and recruitings into the program.**

What's happening is so outrageously inhumane that the natural response is to slip into shocked denial, overwhelm, or blind disbelief, but there is no longer time for these types of responses. This situation needs your awareness and attention. Please do not disregard it, because if these crimes are allowed to continue and grow, ALL of humanity is in serious danger. Although people seem to be being brainwashed into blind disbelief of this crisis, I beg you to let your Heart lead you into a peaceful stand for freedom. **NOW is the time to insure the future safety of humanity.**

What is the remedy? At this point the first step to a complete remedy appears to be to reach enough people who can care to help urge media and government officials to expose these crimes and advise the public on how to deal with this crisis until it is stopped. So please help spread the word ASAP - Please copy and share this paper with as many people as possible.

There are technologies which can detect radio wave intrusions into our bodies. However, some detectors may have a filter, which prevents detection of the low frequencies which are used for mind control. There are also technologies, which can block radio waves, but purchasing them may be too costly for most victims and illegal in most countries. Please help remedy these obstacles. **Until these crimes are stopped, gather loved ones and neighbors into supportive groups, listen to your Heart above ALL else. Please DO NOT join the covert program and leave it if you have.**

Never, in the history of humanity, has there been a more crucial time for humanity to rise into a strong, PEACEFUL, public stand for Freedom.

There was an American congressional hearing for heavily "Targeted Individuals" (TIs) in 2011. I do not know what came of it but government officials are not yet openly acknowledging these crimes, which appear to be happening in the shadows of a covert war that also utilizes weather modification technologies to instigate droughts and storms. There is much controversy on who is doing this. The silence around it makes it difficult to clarify. But **I strongly feel that America, as well as other countries, have been being infiltrated and that the infiltration is to blame, no matter who or what it has gained control of.** The worst of these crimes appear to be done by some sort of dark occult (and their enslaved mind control victims) who have no regard for human life or rights. Victims who refuse to join (like myself) continue to be targeted/tortured Hitler-style. Our loved ones are being recruited and brainwashed against us. We are being held under constant satellite surveillance, stalked, harassed, threatened and shot with laser weapons...etc. Our lives are being slowly and cruelly destroyed. Some have been falsely labeled as "mentally ill", slandered or framed for institutionalization or incarceration. Some have disappeared. Thus far there is no solid help for us. **False covert "rescue" missions relentlessly aim to abduct us. The goal seems to be to silence us through complete enslavement, through discrediting or through destroying us in ways that look like a natural death. This is a critical situation! Some of us are suffering in ways that no human being should have to suffer. We are in desperate need of honest, non-covert help and protection from further harm.**
