Disbelief of Remote Mind Control Technologies is Enabling Lethal Crimes Against Humanity

There are all sorts of foolish "conspiracy theories" bouncing around the world. . .and the damaging outcome is that they lead us to disbelieve EVERYTHING that can be perceived as a "conspiracy." A similar thing is happening in Hollywood where existing technologies are being depicted in science fiction movies. . .leading us to believe that they are merely science fiction. And with the media ridiculing mind control "conspiracys" and discrediting "tin foil hat" people, its difficult to be objective.

Now, in order to face a few Truths, which deeply need our attention, we must break through the walls of doubt and let our Hearts realize that there TRULY ARE genuine "conspiracies" - that covert organized crime DOES REALLY exist and even thrives due to our lack of awareness. . . and that there TRULY is the existence of behavior modification technologies - part of MKULTRA was exposed in the 1970s, and then hushed so completely, in the media, that its sly continuation has become obvious, especially to it's victims. The secrecy around the existence of these technologies, and their criminal use, has been enabling such wide spread misuse that this can now be accurately called a technological holocaust. (The most popular names for technological mind control are, behavior modification, electromagnetic stalking, microwave mind control, and psychotronic mind control.)

Radio waves, tuned to the same frequency as the human brain, can remotely flood whole communities and homes or target specific individuals with finer beams shot directly into the brain. The radio waves can be encoded with subliminal messaging or be set at frequencies that interfere with our brain's natural rhythms and functions. Results depend on which part of the brain is intruded upon, and with what frequency and intensity and can range from mild brainwashings and interrupted functionality. . .to brain damage - psychological mutilation or death. This can be done as remotely as through satellite surveillance systems and can reach anyone almost anywhere. Can you even begin to imagine the dangers of allowing criminal use of these technologies to continue? I hope so.

When we listen closely to the Heart of our own instincts, we can FEEL that something is horribly wrong in our troubled world - we can FEEL what the Truths are. And this is what we must now do because, blind disbelief of behavior modification (mind control) technologies is enabling lethal crimes to continue since at least the 1960s.

What's happening is so outrageously inhumane that the natural response is to slip into shocked denial, overwhelm, or blind disbelief, but there is no longer time for these types of responses. This

situation needs your awareness and attention. Please do not disregard it, thinking that it has nothing to do with you, because if these crimes are allowed to continue and grow, ALL of humanity will be effected. NOW is the time to realize what is happening and take steps toward insuring your own future safety, as well as that for your loved ones and the rest of humanity.

Around the year 2000 my concern shared a prophetic dream, which showed criminal contamination of the Concord, NH public water supply. By May of 2001, most of my pets were dead or missing, my daughters and I were suddenly surrounded by at least 5 unusual deaths, unbelievable levels of chaos and a suspicious fire in my home, which destroyed most of my writings...etc. Pieces to this puzzle are now clicking together.

According to experts the mind control parts of Microwave Weapons are most successful on people who are taking mood altering drugs, like anti-depressants. (I have witnessed the Truth in this.) In 2008, news reports stated that these sorts of drugs were being found in around 24 major public water supplies in the USA.

A secretary at a New Hampshire Environmental Protection Agency recently told me that these drugs are STILL being found in our public water supplies and I do not believe that its from the "run off," which it is excused by. PLEASE think about this and DO NOT STOP thinking about it until you feel/know the absolute Truth. Too much is at stake for it to be washed away with foolish assumptions or blind disbelief.

I believe that the general numbness, the growing lack of care and growing levels of discord in the world are mostly due to criminal use of radio wave technologies. Some of the criminals who hold the controls of these technologies appear to be sadistically aiming to cause chaos, pain and suffering. The general rise in crimes are being blamed on economic difficulties. But the truth is that, by nature, human beings tend to pull together during tough times - letting our Hearts help each other through.

**What is now happening is not natural, not normal,
NOT "meant to be" and is a criminal assault on an
unsuspecting and defenseless populous!**

It appears that there has already been a mass brainwashing against the belief that remote mind control is even possible, because most people just blindly disbelieve it and seem unable face this devastating reality. The unusual part of this is that people seem to not even want to TRY to investigate it. This sad scenario, on its own, can be proof of mass mind control, because there is scientific proof of such technologies and just a little bit of common sense can KNOW that they were created to be used.

People's brains are being either interfered with or damaged in ways that prevent the natural process of personal and spiritual growth. The harm this inflicts can not be over-stated, because it hurts us on EVERY SINGLE level of our existence, especially long term victims. And most victims remain completely unaware of what is happening to them.

**I pray that these lethal crimes can be realized
and stopped before too many more people are hurt.**

PLEASE THINK ABOUT THIS! DO NOT AUTOMATICALLY DISBELIEVE IT, because you may regret it later. I beg you to let your doubt research this with a Heart that aims to find absolute Truth and does not stop until you FEEL 100% sure of obtaining it. But remain aware that web searches on this subject can lead to an intentionally confusing array of misinformation. You will need to listen closely to the Heart of your own instincts above all else. It even appears that operatives of this

Technological Holocaust are placing themselves in the front lines of a SLOWLY emerging publicity campaign that is claiming that these technologies are merely "on the horizon" and offering only glimpses of what has already been exposed to the point of its inability to be effectively denied. But according to victims, knowledgeable scientists and researchers, behavior modification (mind control) programs have been operational, since at least the 1960s.

Quote by (the late) veteran author Jim Keith: "Brain-computer radio communication has long been considered impossible by the majority of people and has consequently been relegated to science-fiction, but the fact is that the technology had been developed into reality by at least the 1960s, during which time the initial experiments were being performed on unwitting subjects." Jim's book; <http://www.amazon.com/Mind-Control-World-Jim-Keith/dp/0932813453>

"The Russian Woodpecker: Experiments in Global Mind Control?" by Philip Coppens; "In April 1953, CIA Allen Dulles gave a lecture at Princeton University, detailing Soviet developments in the field of mind control. He stated they were out to control the mind of free men, both individually and collectively. . . Dulles proclaimed that the Cold War was moving into a new era of psychological warfare, which Dulles characterized as the battle for men's minds. "We might call it in its new form brain warfare. . . In the 1970s, some of this "secret war for our mind" was exposed. . ." Find more on my "Articles" page or on this link: <http://www.philipcoppens.com/woodpecker.html>

Quote by British Psychoanalyst, Carole Smith in her article "On the Need for New Criteria of Diagnosis of Psychosis in the Light of Mind Invasive Technology"; "We have failed to comprehend that the result of the technology that originated in the years of the arms race between the Soviet Union and the West, has resulted in using satellite technology not only for surveillance and communication systems but also to lock on to human beings, manipulating brain frequencies by directing laser beams, neural-particle beams, electro-magnetic radiation, sonar waves, radiofrequency radiation..." <http://www.globalresearch.ca/index.php?context=va&aid=7123>

In 1976 Time Magazine said, "Last month the U.S. confirmed that for some 15 years the Soviet Union has been beaming microwaves at the hulking nine-story U.S. Embassy..." Find more on: <http://www.time.com/time/magazine/article/0,9171,911755,00.html>

Researchers and scientists are now finding out that this microwave energy is used for mind control and that this may have been what was happening to the embassy from around 1961 to 1976. This gives us an idea of how long these weapons have been in use. It would be foolish to assume that these technologies have not remained in use and have not been improved upon. The fact is that they have been unleashed on an unaware population and countless numbers of people are suffering the effects without even knowing what is happening to them.

Gordon Duff - senior editor of Veterans Today stood up for Targeted Individual's mind control claims; "At one time, we thought of all of them as 'tin foil hat' conspiracy theorists. This was until we were able to break through the encoding with some mobile communications devices. . . The concerns go well past simply a few thousand targeted 'trouble makers' that the government wants to destroy." In reference to the general numbing effect of mass mind control, in whole communities, Gordon Duff says, "Tens of millions have been turned into some of those who will. . . read these words and feel and think nothing." And I have experienced and witnessed the reality of this.

Quotes by Turan (Tim) Rifat: "Russian and American research has found that pulse modulated microwaves (as used for mobile phones) can, when modulated with ELF which mimics specific brain patterns, change the behavior of the victim with the flick of a switch."

"Precisely modulated microwave radiation is used to influence brain function. Human behavior and reactions can be entirely controlled by using pulse modulated microwave EM radiation" There is "a catalogue of every specific brain frequency for each mood, action and thought. . .there is one for anger, suicide, hysteria, trauma, serial killing, paranoia, lust...etc." <http://www.whale.to/b/rifat.html>

Komsomolskaya Pravda stated that, " In 1924, chairman of the academician council of the Animal Psychology Laboratory, brilliant animal trainer Vladimir Durov wrote a book on animal training and told about his experiments on hypnosis applied to animals. In 1932, the Bekhterev Institute of Brain named after the scientist was officially charged to conduct experiments on distant interaction. In 1965-1968, the Institute of Automatics and Electroenergetics based in Novosibirsk studied mental communication between humans and animals. The materials of the study were classified and were never published officially." http://english.pravda.ru/science/tech/14-08-2007/95965-psychochronic_weapon-0

It would be foolish to assume that these technologies are not also being used on human beings within the same time frames. My experiences say this has been done since the mid 1970s, but it appears to have begun much sooner than this.)

Quote by President John F. Kennedy, in 1961, on the subject of covert war and its secret societies; "Today no war has been declared - and however fierce the struggle may be, it may never be declared in the traditional fashion. Our way of life is under attack... we are opposed, around the world, by a monolithic and ruthless conspiracy that relies primarily on covert means." "there is little value in opposing the threat of a closed society by imitating its arbitrary restrictions. . .I want to talk about our common responsibilities in the face of a danger. . . the dimensions of its threat have loomed large on the horizon for many years. Whatever our hopes may be for the future - for reducing this threat or living with it - there is no escaping either the gravity or the totality of its challenge to our survival and to our security - a challenge that confronts us in unaccustomed ways in every sphere of human activity... This is a time of peace and peril, which knows no precedent in history. It is the unprecedented nature of this challenge that also gives rise to... our obligation to inform and alert the American people - to make certain that they possess all the facts that they need, and understand them as well... I have complete confidence in the response and dedication of our citizens whenever they are fully informed."

The time to heed JFK's Wisdom feels long over-due.

What are these technologies and how do they work?

Technologies like the Russian SURA, the American HAARP, Gwen Towers and Satellites, are the primary suspects in technological mind control. Most people are blaming cell towers for the microwave targeting. The Truth is that ANY technology, which can emit radio waves (microwaves), can be criminally used.

Due to what I've witnessed and directly experienced, I feel certain that much of the technological targeting is being done VERY remotely - more remotely than many are claiming. I have been being targeted with microwave and laser weapons, which have the capability of shooting beams of radio waves FROM THE SKY and quickly circling around and coming at me from different directions and angles. I've experienced this when I've been in areas where there are no houses, vehicles, cell towers...etc. And the only technologies, that I know of, which can do these sorts of maneuvers, are satellites.

However, I have heard that some radio wave transmitters bounce waves off of the ionosphere, in

order to be redirected, which means that they too can also send beams of radio waves from the sky. Either way, the effect is the same.

I feel, to the core of my heart and soul, that this is Truly the most dangerous thing humanity has ever had to face. . .and it MUST be faced quickly, because this has already been happening for too long and is harming too many.

Who is Doing the Targeting?

Though many want to blame ONLY the USA government, it appears that countries like Russia, Britain and Germany were successfully utilizing radio wave technologies, for mind control, long before parts of the USA government, and/or associated organizations seem to have leapt into the pit.

Microwave expert, General Barrie Trower, brags about the British being the most advanced in the field of microwave weapons. And I've read reports where Russia does the same. Then there's also those who consider themselves the global "elite" or the "illuminati," (those who appear to be some sort of dark occult) who could easily be more technologically advanced than they'd advertise. They certainly have the financial capabilities and I hear that some satellites are privately owned.

Perhaps ALL of the above are involved with various aspects of the microwave targeting of humanity. There truly does appear to be more than one group or organization that is criminally using radio wave technologies. And at least one of them appears to have unlimited financial resources.

Due to the cruel nature of some of the technological targeting, which I have experienced and witnessed, there seems to be some sort of dark occult doing parts of it. Other parts of it seem more for the purpose of control.

When I look beyond my personal situation and into the bigger picture, I feel that there has been a covert aim, through MANY decades, to take over the USA, and that this is being done by a commu-nistic force, that utilizes mind control technologies, and has already infiltrated the USA. I believe that some of our own military and government personnel are victims of remotely inflicted mind control, and that these brainwashed victims have been being recruited into a deceptive program that is now aiming for complete control over USA citizens as well. Through this process, it seems like govern-ment and citizens are being pitted against each other. The sly manipulations to create discord and distractions, through this process, are many. Due to some of my own experiences, I believe that Russia is heavily involved in this.

I pray that, through the exposure of the technological part of these crimes, the HEARTS of citi-zens and government will unite into a PEACEFUL stand to regain our psychological health and free-dom.

*This is a world being secretly torn apart
Through breeches of mind and blocks of heart.
But Light will rain as pure as snow
To Save us from the final blow.*

Symptoms of Microwave Mind Control

Most victims will experience unnoticeable brainwashing. The most common noticeable symptoms of mind control are mental numbness and fatigue, a faint high pitched ring in ears, unusual neck ten-sion and head aches, thoughts that do not match feelings.

In general community or organization targeting, remotely directed radio waves can be set at fre-

quencies which interfere with human functionality - set at the same frequency as the human brain and encoded with subliminal messaging. Effects can range from mild brainwashing to debilitating levels of mental numbness. (Targeting can also interfere with the functionality of other technologies.)

Heavily targeted individuals can also experience symptoms that range from periods of unusual stress, mental confusion, forgetfulness, unusual or repetitive thoughts and mood swings, periods of diminished hearing and eye sight, sharp pains shooting into head and dehydration. . . to symptoms that intentionally mimic mental illness (primarily "depression," "split personality disorder" and "paranoid schizophrenia"), brain damage, blindness, paralysis, psychological mutilation and physical death.

Long term experiment cases can also have unusual tooth decay, dry scalp, ridges on finger nails, chains of unusual medical inflictions, unusual discord between family members...etc. (Parts of the targeting seem sadistic with intentions to inflict suffering and chaos.) In severe cases, unaware victims can be completely controlled by perpetrators who force them into suicide or things like lethal shootings at schools or navy yards.

Long term, heavily targeted victims can become disconnected from their hearts and natural instincts and can often seem narcissistic, which is one of the worse outcomes. The interference with our processes of feeling, thinking and sensing is LETHAL to our psychological health. We can not grow and evolve and become all that we were meant to be while our brains are being intruded upon and manipulated.

Some people seem less susceptible to being completely controlled - perhaps those of us who are more creative and independent. People who are taking mood altering drugs, like anti-depressants, are VERY susceptible to being completely controlled.

Our own hearts and natural instincts can override SOME of the remote manipulations, if we are aware and not being too heavily targeted. BUT if we are not AWARE of what is happening we can easily confuse the intrusions with our own thoughts, feelings and instincts, and this can be devastating. . .to say the least. Through awareness and a strong will, we can avoid manipulations that are alien to our own nature. But when our existing issues or feelings are triggered, or when we are also inflicted with heavy doses of emotional trauma, it is more difficult to resist.

Symptoms may slowly increase, come and go, or continue almost constantly. It seems to depend on how we are being targeted and for what purpose.

Thus far, heavily targeted victims, who have become aware of what is happening, have not been able to obtain help or protection. We are almost steadily tortured in the worst kind of prison - a prison that is filled with people who appear to be brainwashed into disbelief. Can you imagine?

The most dangerous long term, general effect is harmful interference with our natural process of personal and spiritual growth - the loss of psychological freedom.

The most recent developments in Mind Control Technologies , which are said to have mind reading capabilities, seem too outrageous and dangerous for most of us to even want to believe at this point. But PLEASE believe me when I say that this crisis can only get worse VERY quickly, until enough people become aware of what is happening and take HUGE steps toward bringing it to an end. At this point in time it seems safe to say that MOST of humanity is being effected to some degree by criminal use of microwave/radio wave technologies. Our natural process of personal and spiritual growth is being blocked and the ramifications of only this part of it could fill a book or two. THIS IS SERIOUS!

I believe that the general numbness, the growing lack of care, and growing levels of discord in the

world, are mostly due to the effects of wide spread remote mind control. (The radio waves that are being imposed upon us are literally driving us crazy.) The rise in crimes are being blamed on economic difficulties. But the truth is that, by nature, human beings naturally pull together during tough times - letting our Hearts help each other through.

There are many valid witnesses to the effects of microwave targeting. I am one of these witnesses. Although those who target us appear to be aiming to discredit me, in order to stop the public from believing me, I feel that people will eventually FEEL the Truth instead of believing the manipulations, because I am not the only one this is happening to. Reports state that through the past few decades long term witnesses to these crimes have been HEAVILY targeted, (Hitler Style) with even our own family members being manipulated against us, in efforts to publicly discredit/slander us and have us institutionalized or incarcerated. Some have been threatened into silence. Some have been falsely labeled as "mentally ill." Some have been framed for uncommitted crimes. Some have been inconspicuously murdered. And some have disappeared. The targeting that is happening to cover criminal use of Mind Control Technologies is as inhumane as inhumane can possibly get.

It is imperative that you listen to the heart of your own instincts on this subject, because your mind is not going to want to believe it and your heart may ache so much that it aims to slip into denial or overwhelm. . .but there is not time for these types of responses. This situation needs your heart to find the courage to face it and stand up against it.

What will Become of Humankind if not allowed a Free Mind?

This is a question that deserves and needs immediate serious contemplation. Continued criminal use of radio wave technologies is covertly harming humanity in many ways, but the mind control part is by far the worst, because it can be found at the root of most of the other serious problems we face in our troubled world. PLEASE THINK ABOUT THIS.

**Take COURAGE, wrap it around your HEARTS and rise
into a strong PEACEFUL stand to regain your FREEDOM.**

What is the remedy?

Take immediate action. Standing up in a strong and peaceful fight to stop criminal use of radio wave technologies. Write letters to your local State police, Sheriff's Department, FBI, Governor and Congressmen. Tell them that you are concerned for your safety and ask them what they are doing to remedy criminal use of radio wave technologies.

We will also be far better off when we, more fully, open and listen to our Hearts above what is being projected into our minds. . .and also do the following things: take as few pharmaceuticals as possible; drink only pure clean water; build or purchase radio wave detectors that do NOT have a filter, which prevents detection of the low frequencies used for mind control; build or purchase radio wave blockers. (Although I hear they are becoming illegal to obtain and use in many countries, I feel that we have a right to protect ourselves, through creating and using radio wave blockers, as long as it does not interfere with anyone else's right to receive radio waves); Doing creative visualizations for spiritual protection can help dispel the negative brainwashings. (This can include imagining your body being filled with, and surrounded by, pure white light.) This may sound silly to some, but it REALLY helps; Lead, tin and water can interfere with radio waves. Perhaps you can conjure up

something which utilizes these substances or something else, which I am not aware of. I feel that we must do whatever we can until honest and uncontrolled parts of our media and governments begin either strictly regulating or shutting down the technologies, which are being criminally used on us.

Note to medical, media and law enforcement personnel: PLEASE realize this horrible reality, and that you may be victims as well. Please do not judge or label Targeted Individuals. Please care to investigate and perform the proper tests, which can prove it, instead of adding to our plight with blind disbelief, with assuming that we are "mentally ill," or by standing with this criminal operation.

Proving our sanity is an impossible task with anyone who does not realize what is REALLY happening. We are already hurting too much. We need you to stand WITH us so that ALL of humanity can gain the hope of regaining the freedoms we need, in order survive and heal and grow. Please find the Heart to realize what is happening, and then find the courage to stand up against the crimes, instead of us.

There are many other links on the ones below. Please also do your own web searches, but be aware of intentional misinformation on the web. Listen closely to the heart of your own instincts above all else, even with what I share here.
